

Nobody Fights Alone

Coping with Cancer Webinar December 2, 2021 . 5:30pm

For women at risk, in treatment, and those caring for someone undergoing treatment

Body Image and Sexual Health

Dr. Christina Wilson is a board certified women's health nurse practitioner and nurse scientist. Dr. Wilson is an Assistant Professor at the University of Alabama at Birmingham School of Nursing where her research focuses on the assessment and treatment of body image and sexual health issues in patients with gynecologic cancer.

Genetics in Ovarian Cancer

Meagan Farmer has been a genetic counselor at UAB since 2012. In this position, she directed the cancer genetic counseling program, expanded telegenetics, and was a National Comprehensive Cancer Network panel member. She has been part-time at UAB since 2018 and continues to contribute to patient, research, and educational activities.

Nutrition

Rachel Cloutier is a board certified acute care nurse practitioner who specializes in oncology. She is a Clinical Assistant Professor at Virginia Commonwealth University School of Nursing, and maintains clinical practice in oncology at Massey Cancer Center. She is a doctoral student focusing on nutritional status of women with breast cancer undergoing chemotherapy.

Take Care of Yourself Too-a Care Partner Discussion

Lori Willcoxon is an Oncology Clinical Educator (OCE) for GSK Oncology, providing educational presentations with focus on ovarian and endometrial cancers. She is an Oncology Certified Nurse with extensive experience providing educational support for adult hematology oncology patients and care-partners in both inpatient and ambulatory care settings.
